# Kenton County School District Academic Exposition

In moving away from tri-fold board projects to real world, hands-on projects; KCSD presents an opportunity for students to showcase projects, performances, experiments and abilities based on their unique talents and interests in **all** subject areas. The Academic Exposition connects students, parents, business partners and other stakeholders in a multidisciplinary celebration of the academic interests and talents of KCSD students.

Academic Expositions will connect our schools and the community while generating interest and excitement in the various academic areas. During the Academic Exposition, students will display their projects and then have an opportunity for additional experiences.

### What an Exposition Project Might Look Like:

An Academic Exposition project is an investigation that incorporates more than just science.
