

***Please find below some counseling resources for grief. Please call or contact the groups below to make an appointment as well as for scheduling.***

Fernside, established in 1986 as the nation's second oldest children's grief center, remains today a national leader in providing grief support services, outreach and education to the community. Fernside offers peer support for grieving families – children, teens and adults. Fernside serves children ages 3-18 and the parent/guardian that is bringing children to our program. Fernside is an affiliate of Hospice of Cincinnati. All Fernside services are offered free of charge.

To learn more about services and/or to register for a Fernside support group, call 513-246-9140.
