Schedule online at: <https://www.ethos-labs.com/vaccinations/>

The Pfizer-BioNTech COVID-19 Vaccine for children 5 through 11 years of age is administered as a two-dose primary series, 3 weeks apart, but is a lower dose (10 micrograms) than that used for individuals 12 years of age and older (30 micrograms).

Schedule Vaccine

• NO COST TO STUDENTS OR SCHOOL STAFF •

Ethos Laboratories, located in Northern Kentucky, is a CLIA certified, CAP accredited, high-complexity laboratory that specializes in COVID-19 PCR testing, COVID-19 vaccinations, pain biomarker testing, toxicology testing, and research and development. Ethos conducts revolutionary research into chronic disease and has been awarded funding from federal programs to develop novel diagnostic tests for challenging and rare diseases. Ethos received the first FDA EUA in the country for the SARS-CoV-2 PCR assay with MALDI-TOF in 2020, which has inclusion criteria for the use in children under the age of 18, back-to-school testing and back-to-work testing.
